STEM EAP Hacks

Practical Strategies for Busy Teachers

BALEAP 2025

Facilitators: Gill Kendon, Lori-Ann Milln, Natasha Rust and Aaron Woodcock

Date: Monday 14 April 2025

Location: University of Plymouth

What's this session about?

What we're doing today:

- Share strategies
- Co-create solutions
- Leave with usable ideas

Why hacks?

- A hack is...
 - A simple, easy-to-implement strategy that works.

Common challenges in STEM EAP

- No input from faculty
- Disengaged students
- Dense or unfamiliar texts
- Time and resource constraints

Activity: Collaborative Brainstorm

Let's co-create:

01

Choose
scenarios

02

Share ideas

03

Make a poster of
hacks

While you work...

There are no
right answers

Use your own
teaching
experience

Keep it
practical

Group Share & Synthesis

What worked?

What's your top hack?

A photograph of coffee cups, a paper bag, and pizza boxes on a dark surface. Three brown paper coffee cups with black lids are in a cardboard tray. Behind them is a brown paper shopping bag. In front of the cups are two stacked cardboard pizza boxes. The background is a blurred kitchen setting.

Takeaways

Your Takeaways:

1. Hack List (co-created)
2. STEM SIG handout
